## Work Experience

**WEB DESIGNER & DEVELOPER | CRUE TV**

**AUG 2020 - DEC 2020**

(Figma, AWS EC2, AppStream 2.0, Adobe Creative Suite, WordPress, Moodle, Stripe)

Designed and implemented online education platform for under-represented youths partnered with the Red Cross

- Created a low-latency Adobe Creative Cloud application streaming service using AWS AppStream 2.0 which provided on-demand instances directly to students browsers.
- Deployed websites with AWS EC2 servers running Linux and utilizing Route 53 for DNS management.
- Collaborated with the team remotely using Asana, Slack, and Google Suite.
- Designed websites for the project using Figma for the wireframes, implementing design changes based on feedback from the team.
- Implemented marketing websites with WordPress CMS ensuring the owner could make changes easily.
- Developed the learning platform using Moodle, with Stripe payment integration.

**BANKING ASSOCIATE | BANK OF MONTREAL**

**AUG 2019 - PRESENT**

- Awarded market spotlight in Q3 2020 for exceptional performance in sales and client relations.
- Digital Leader for the Forest Hill Branch leading mobile and online initiatives.
- Consistently exceed performance targets receiving a variety of weekly awards for sales, in addition to referrals.
- Revamped old filing system ensuring that files were organized properly and easily accessible.
- Accurately gauge clients' needs, ensuring that their financial needs are met, while creating a relationship.
- Prevent fraudulent activity by using a variety of methods to authenticate clients and transactions.

## Projects

**CAPSTONE PROJECT: STORM CHASER**

(Agile, Project planning, UML, React.JS, JavaScript, Mongo.DB, Express, Node.JS)

A lead generation web app which analyzes current storm data and gathers a list of possible leads for construction/repair services. First half of the capstone consisted of project planning and requirement gathering with emphasis on business and system needs. Project consisted of sprints with weekly meetings with stakeholders.

**NIMROD**

(React-Native, JavaScript)

Navigation game built in React-Native using Google Maps API where players complete quests based on their locations.

**GIVELOVE.COM**

(Figma, Webflow)

Designed and created a website for checkout applications which would give customers the option to donate a portion of their purchase to a charity of their choice, paid by the business.
